

Sir

Solis Birmingham
25th July 1799

I received (sent over from Mr. Wadgham) the honors
of your letter dated 4th Inst. with an Enclosed of Mr.
Bassendine's letter to me. In reply thereto, I must observe
that the common sort of Hot rolled paper is not proper
for the purpose of Φ Chin because it is rough upon the surface
& not so regular and exact in thickness as is necessary to
make good Paper & of uniform weights. It is therefore
necessary to roll it cold in hard stone polished rollers,
by which means a fine surface & a more exact & uniform
thickness is obtained. Moreover there is an art in
the annealing, without which were the paper rolled
even so fine, the surface would be injured, but these
are things I am perfectly master of, & have an excellent
Rolling Mill & every other convenience, besides which
I am engaged in many paper works & a practice
in a paper smelting work, & can supply you with
any quantity of the Blanks you may want.
Paper is a commodity that fluctuates much in price &

& whatever price I might quote is, of course, may probably be altered, either higher or lower when your orders may arrive from America. The present price I should ask for such Blanks as I have sent you a Specimen of, including

- 1st Five rough for per
- 2^d Rough Hot & fire cold Rolling, to a piece } L
- Which I make the surface clean bright } 119 Ton
- 3^d Fulling out 4 1/2 pieces in 1 pound diameter } or 12 3/4
4. Re-melting } 11th 16
5. Clearing the Surface

I have on a former occasion sent Specimens of my Coin to the General Whittinston & likewise to Mr. Huttenhouse the Master of the Mint at Philadelphia & I now think it would be better for many reasons I don't give to send the pieces ready made & quite finished at 140 £ a Ton or 11 3/4 £ for every thing. My money is perfectly round & of equal Diamⁿ, which is not the case with any other. I have sent you a few Specimens of the kind of Blanks you want, but not to your weight, which will make no difference in price & I have also sent you

you may see in the London price list of Buenos Aires (weekly)

The present price of these Copper is from $\text{L} 121.6.3$ to $\text{L} 126.6$
 For the former being multiplied by 5 is equal to $\text{L} 364$ & the 2nd to
 will barely make 2 tons of Blankets of 5 lbs. of each $\text{L} 102.13.8$
 divided by 5 $\text{L} 20.4.6.3$
 gives $\text{L} 100.13.4$ here

I don't buy these Copper & charge nothing for my expenses of getting
 out the Marks, work, unrolling, forwarding, left, Blanketing, weighing,
 profit, Interest of Money & general Expenses, I say if I was to give
 for all these things & take a profit they would cost $\text{L} 132.13$ of the
 whereas the price I ask is turning out all my expenses & profit $\text{L} 120.6.3$
 for the 2nd price for the present (in the case of shipping in such the
 time of delivery to your order either in London, Bristol or Liverpool
 or any other port I will do it 2 mos after date, but that was 3 mos
 more but the price will be as above $\text{L} 132.13.4$ for I must pay
 ready Money for the Copper: to either of the above places must be
 added the Cost of Cash 15% for the carriage to London by Water
 at $\text{L} 11.6$ Bristol at 2% & Liverpool at 3% Shipping charges
 at Bristol or Liverpool at 7% loaded & returned as usual before

the pattern will undertake it the freight must be agreed for by the shipper
 The Insurance may stand in hinder both of which will vary according to
 the time. Any Rolled Copper that can be brought for Blanks is another
 especially so worth on the surface are sufficiently exact in thickness for
 making. Remember now if it was the purpose of the surface would be destroyed
 by the common mode of annealing but my Copper is Rolled & is in fine
 polished condition & the surface preserved fine in the annealing. If they are
 intended to be milled on the Edge with any inscription or with Blank
 round Edge I will mill them for an addition of 25¢ of the 8¢ it will
 be far better to Mill them before they are annealed than afterwards
 in that operation will in some degree harden the Metal again &
 if the ~~my milled~~ ^{rolled} ~~is annealed~~ & Blanked they will be ready for
 turning the moment they arrive but if you wish to have them
 Corrod I will do that for the addition of 25¢ of the 8¢ for complaint,
 which adds to the £110. 6. 8 makes £142. 6. 8 & carried 4
 any comparison you may make with other persons for
 be no guide to you because you cannot buy such a
 of price, nor coin neither, as to quantity I can

with a Ten Day - time that quantity of water, consequently
 of I have too longy before to spend the extra coffee which
 may require a few weeks but I think I could send off
 the 5 Ten you mention in a fortnight or thereabouts after receiving
 your order. I have been pleased to indicate a house in London
 that will accept of it as the term of dealing in all that
 is similar to the dealing in Bullion in Money the Manufacturing
 part being but a small proportion to the intrinsic value.

I am

Yours most Obedt Servant

 To Mr. John Bullen and
 John Bullen, London

1797
 Sir Mr. Bullen I have been favoured with

your proposals relative to Copper Platelets, and accordingly
 committed money to pay for the first quantity sent for, to make
 Trial, preparation to a regular & constant supply. I have
 been extremely much vexed at the want of promptitude in sending
 them out, having expended upon them, and left without one ounce
 of Copper and not one shilling as to the Copper Coinage —

The first coin, prevented from a hesitation about the rise in the
 price of Sheet Copper but what can delay this very important
 I earnestly conceive. I have written by Mr. Bullen to pay
 you £1000 — that you may be able to forward the Platelets
~~£1000 as ordered~~ first, which with a Ballance remaining
 one of which was formerly sent, I hope will be shipped without the
 least encumbrance. ~~Platelets~~ of the quantity before
 mentioned — I should be glad if at least 15 tons of you have them
 ready — if not let them be shipped at two different times, as they
 can be got ready — If any Ballance should remain due to you it
 shall be remitted ~~at once~~ immediately — If what you
 send shall suit us, you may expect the supply in with that
 quantity Spring of 1798 — I hope to hear from you by the first
 opportunity, from London or Bristol ~~any~~ & you will please to
 let me know whenever you send —

I am Sir C

Bullen

Mont of the Oct. 5 June 1797

Dear Sir

I am greatly mortified, that we have as yet heard a word from Mr Bolton relative to the Copper Planchette so long since sent for. We are now quite idle as to Copper & shall remain so until it arrives. — Enclosed you have a Letter to Mr Bolton, ~~with~~ ^{the} Bills of Exchange to amount ^{£1390-⁰⁰-⁰⁰ due} ~~of £1390-⁰⁰-⁰⁰ due~~ as at first & which with the Bills heretofore sent of £1000. Total makes up £2390-⁰⁰-⁰⁰ which after deducting the £37-¹⁰-⁰⁰ due to Mr Colman, & the money paid for the Planchette on the way, I have requested ~~that~~ ^{it} may be immediately sent out to Planchette by the very first Vessel, without unnecessary Delay.

I am with great Respect

Yours Obedient Servant

Yours given by the Car came duly to hand.
 It can give me real concern to have afforded you so much
 occasion for complaint. I have written Mr Clifford very
 particularly upon the subject & have informed him of the
 reason why your order was not better executed.

Regarding cold rolled Copper there has been much said
 about it but it has been found not to answer in every case &
 we therefore submit to you but we thought it would not do
 for the purpose for which you wanted it from being of too
 hard a nature.

Mr Bolton who I apprehend is the
 person that has offered you the Copper at a lower price is
 a very ingenious workman & has had some knowledge of the
 true India Copper which has brought him into the habit of
 that kind of work. I must be the reason of his being able
 to do it at a lower price for it is not in his power to sell
 Copper cheaper. I might say so cheap as ourselves I cannot
 tell upon what principle he gives out that he comes for the
 British Government for I am not been able to learn that he
 ever did any thing for them. We had the Contract to supply
 the Copper for the last campaign some years ago.

Sam^r Bayard Esq.John Bayard 28th 1758

Sir

According to your letter of the 20th inst.

I have forwarded for Liverpool 65 Casks containing

Sugar & Co. in
9. 13. 2. 12. 6 of Manchester which were shipped on the 24th 6thon board the Manchester on p^r Bill of Lading containing paid

Ship Sunderland is to join Company at Cork, but of which

I can give you no certain information, therefore your

Broker must use such caution as is prudent in making

proper provision for joining Company there or elsewhere.

By the Enclosed herewith you will
perceive the amount to be £ 1070 15. 6 for which I shall

Take an early opportunity to draw on you, hoping the
 Pleasants will arrive safe & your ^{main} ~~entire~~ satisfaction
 remain

1798.

Feb^{ry} 1st Forwarded to Liverpool Shipped by the Manchester
 Captⁿ Richard Barker.

Philadelphia, 10th July 1837

107

Expecting Mr. Bayard would not leave London
~~until the 10th~~ ~~The steamer is expected at least~~
~~as soon as he did, I wrote him, to settle with you, & give you~~
~~orders to Mr. Bayard, who I have just told left London to~~
~~get a supply of Copper Platelets, but I felt he would not get to hand~~
~~for its arrival, & therefore I have not yet been able to~~

Since that date I have writ by the Manchester, forty five
 boxes of Platelets, but without success, or least - and
 I hope Mr. Bayard will be able to furnish me with -

These Platelets are just as I wished them and answer
 every purpose we expected - In future, I shall
 expect a regular supply in such quantities as you can
 furnish by every convenient opportunity so as to make
 up about 40 or 50 tons of business - I shall keep up
 a direct correspondence with you, and wish for your
 address, & the best means of communication - Your
 remittances shall be punctual, and if at any time by
 accident, they should be delayed, it shall be made good
 by the allowance of interest - I wish to have every
 Shipment insured or such advice given me as to get
 insurance made here - If the request would not be
 improper, I should be much obliged, by particular in-
 structions for the handling of Dyes - for altho we
 know them tolerably well down, yet our loss in them,
 is much greater than I can think necessary -

If I could obtain a Shipment of half a Ton of the
 best Steel for the making of Dyes, I should be much obliged.

When I see Mr. Bayard, who is arrived at New York

I shall be informed of the State of my Debt with you -

I am Expectation of hearing from you by the first Oppor-

Matthew Boulton

Sir

Being on a Journey thro' this State, having

left Philadelphia on acct of the prevailing Epidemick, I have
 rec^d a Bill of Exchange for £400 Sterling, which I have ^{thought it} thought
 best to remit to you, ^{to this purpose} on acct of the Mint of the United States, being
 in hopes that you have in this, sent me a farther supply of
 Blanchetts, agreeably to my several letters, sent by different
 Convoys from Philadelphia. The Bill is the fruit of the late
 drawn by H^{on} D'Azegular of the Island of Jamaica, on the
 Messrs. Trevello & Co. Merch^{ts} in London for £500 that payable in
 60 Days, dated 17 May last. You will be so good as to send
 this to the Minter of the Mint, and whatever ^{you may} ~~other~~ ^{other} ~~other~~
 one for the ^{C^{ts} of the Mint} ~~Blanchetts~~ ^{shall be} ~~shall be~~ ^{as soon as I get}
 into Philadelphia again. I must beg you will not desep
 port me in a constant supply, from time to time a opportunity
 offers.

I have the honor to be

Yours very H^{on}ble Serv^t

W. B. Bonnet

Ship of 8

fleet, equal to ten Horses constantly at work, the whole shipped on board a Vessel bound for this Port, so that Congress may have a View of the entire Expence by adding the Freight and Insurance — There is an Opposition in Congress with the Minority for the Mint — at any Rate therefore it will be necessary for me to have an accurate Estimate of all the Expences attending it, that the Extent of the Advance may be known, as if Congress should come into the Measure, an express Appropriation may be made for it, as no Money can be issued from our Treasury without it —

I have the honor to be with great Respect

S^r Sir

Your very Obedt^l Serv^t

Thos. Bondwell Esq^r

N^o. This Letter has been detained from the Difficulty of obtaining Bills of Exchange which from a Number of concurring Circumstances have been in a curious State of fluctuation between drawing & refusing to draw, waiting for the turn of Events — and at last have been obliged to send to Ballinore where none could be got under 90 Days Sight & they have reduced the Sum I sent for by £50 for their own purposes — I shall renew the Remittance in a short time —

Dec^r 21. 1799.

Original P. Ship Active

to London

Duplicate P. Packet via N. York

Triplicate P. Ship ~~to~~ to Liverpool

Print of the United States

Nov. 6th 1799.

Sir,

I have the Honor of acknowledging the Receipt
of your favour of the 3^d of July together with the 19 Tons
of copper Planchetts amounting with the Charges as per
Your Acct £2905.10.8 Sterling, which is carried to your
Credit — These Planchetts have arrived in the best
order, & are a welcome Shipment — Enclosed you have
the proper Document to show that the Swannick sailed
with ^{armed Vessels} ~~Carrying~~ of Course that we are entitled to the
return of 2 p Ct which you will be so good as to carry to
the Credit of the Mint —

We have been so deranged by the dreadful and repeated visitation of the Yellow Fever, that our business is almost entirely interrupted. The usual firm had long since been just getting into operation again after an absence of two months, and as the public officers are but just returning and not yet quite settled, it is with some difficulty, lest you should be wholly disappointed, that I have sent you enclosed, ^a Bill on Brickwoods & Daniel, London — drawn in ~~your~~ favour ² Rev. G. D. Bond — at 90 Days sight for by David Stewart & Sons of Baltimore for £125/- sterling, which when honored, I beg you to pass to the credit of the Mint — And I hope by some winter ship to send you Bills to cover a spring Shipment &c

I am preparing to lay before Congress, an entire new plan of a Mint, as I am dissatisfied with our present Establishment — to enable me to do this with Permission, will you be so good as to let me know what you will charge for a complete Apparatus of a Mint on your own best approved plan, ~~for starting~~ ^{including} a series of Dies, together with a steam Engine.

plank equal to ~~the~~ ^{the} House constantly at work, the whole shipped on board
a vessel bound for this Port, so that Congress may have a view of the ^{entire} Expense
by adding the freight & Insurance - ~~I think also to this map the~~ ^{to this map the} ~~the~~ ^{the}
~~scale of the expense of a~~ ^{scale of the expense of a} ~~vessel~~ ^{vessel} ~~and~~ ^{and} ~~the~~ ^{the} ~~cost~~ ^{cost} ~~of~~ ^{of} ~~it~~ ^{it}
~~is very great~~ - - There is an opposition in Congress with the Minority &
the President at any rate, therefore it will be necessary for me to have an ~~own~~
accurate Estimate of all the Expenses attending it, that the extent of the
Donation may be known, as if Congress should come into the measure, an
express appropriation may be made for it, as no money can be spent from
the treasury without it - Jan 24

Mr. Houghton will copy this with the necessary corrections when the Bibles are purchased, if they require it - If the Bibles should be ready, if they can be sent by this Vessel, sign my Name to the letter and underneath add (Copy) and we will send an Original by another Vessel -

P.S. This Letter has been detained from the Difficulty of obtaining Bills of Exchange - which from a number of concurring circumstances have been in a constant state of fluctuation between drawing & refusing to draw - waiting for the time of Expiration and at last have been obliged to send to Baltimore, where none could be got under 90 days sight; & they have reduced the sum I sent for by £50. for their own purposes - I shall receive the Money within a short time -

Please procure the necessary for recovery of any return
 of Shipments that may be due in last of the Swansea & being
 & deciding under any of the circumstances beyond.

Charles Bordenet Esq^r

London near Broom May 31. 1799

I received your esteemed fav^r of the 20th March on the 27th instant covering David Stuart & Sons of Baltimore on Brickwoods & Daniel of London three Bills value together £1330, say eleven hundred & fifty pounds sterling payable at 90 days sight, which when paid shall be passed to your credit. I perceive by examining a copy of my acct annexed (to which as well as my letter I beg leave to refer) that in the original I have made a mistake in the duty & post charges at Liverpool which was £32.4.4, therefore the total £1362.8.8 which you will please note accordingly. I am yet unable to give you any acct of the report of the committee of enquiring in the copper business as the discussion in Parliament has been put off from time to time. Mr Boulton is again returned to London on the same day yesterday that nothing is yet done. Unless you should write with the positive orders to send out more planichets at the price he asked it may throw me into the knowing how to proceed — There is every appearance of the price being £130 off ten in tough cable which in my invoice I charge £16.

I am much surprised that none of my letters had reachd you on the 20th March but hope ere this you will have recd the whole except the annexed — the planichets I hope you will have received safe long before this reaches you & the knowledge of which will give pleasure to

Yours ever &c James Watt

London June 8th 1799.
 Dear Benjamin Copp,

I have this moment received from my house
 at Isleworth, an extract of your favor, dated 2^d March,
 as yesterday was the day for making up the American Mail
 I fear this may be too late, but I am unwilling to lose the
 chance of sending you a short letter to say that I have ordered
 the Tonn of Blanks to be prepared for you in 2 weeks & if
 no ship is at that time upon the British & Bristol passage
 I will not I hope in the house ordered. But time to be
 prepared & sent by the first that shall land. I am sorry to
 say that though Cast Copper, such as is proper for rolling hot
 Cyls is now sold at 120^d £ I find very little at market
 however I have of command of as much as I want.

If you are acquainted with any of the Accounters in
 the Shyler Mine I will thank you to inform ^{them} that Messrs
 & J. Watt, my partners, have erected all the Steam Engines
 upon the Cornish Mines the Newcastle Mines & all the
 Deep Mines in England, & that we draw great quantities
 of Water from the Depth of 200 Fathoms or from any
 other depths wanted, & consequently can keep the Shyler
 mine dry. And as I am concerned in Copper Mines & Copper
 Smelting works I should be glad to contract with
 them for all the Ore then Mines produce

So soon as I return home I will take into consideration
 the Estimate of J. Currier & Co. I write to you by
 the next Mail but it is not in my power to day
 pray for what said to you want & necessities
 I must know that before I can recommend the most
 proper sort

My new print is quite finished & is a beautiful Machine
 as to the paper I have & Complex Machine
 I have coined out 8 papers in each there 40000 pieces
 of Paper Money is in one pound w^t.

Pray excuse my great haste & believe me

I remain wth much respect

Yours most obliged & obed^t Serv^t

Wm. Doulton
 of Soho

Copy

Elihu Bondinott Esq^rSoho June 25th 1799

Sir,

Annexed you have the particular ^{Particulars} of 100 Casks of Planets sent to Liverpool the 20th instant to be shipped to the Clothier by which Vessel you will receive the present; as the sailing of this Vessel I expect will be about the 28th inst. I am fearful I cannot furnish you by her any other particulars as I have the Insurance to effect, & besides I do not know what the duty & charges at Liverpool will amount to until I shall hear from my Agent.

The Copper Business is not gone into by Parliament, but the Members have pledged themselves that something shall effectually be done early next Session:—during the course of the Business before the Committee & as Orders have risen 20th Oct.

I cannot fix the Price of the present shipment at this moment but when I shall have effected the Insurance & got the Charges of Shipping I will furnish you a complete Bill.

I beg leave to refer you to the above Copy of mine of the 30th ult & to assure you I am in the utmost Respect

Sir

your most obliging Serv^t

John April 29th 1799

Sir,

I refer you to mine of the 1st Current w^{ch} the Amelia since which I have effected the Shipment of your Parachute and to the Annex'd Copy of Weights I have added the Money Paid also the Premium of Insurance, the whole amounting to £1610. 7. 5. of which I have only received in part £500. the balance or the greater part thereof I hope is already on its passage as Money with me at this juncture is remarkably scarce.

The Enquiry into the fate of the Coffin Minus I believe has been gone into but the result is not known to the writer & Mr. Boulton himself is now in London on the Business but just on the eve of returning therefore must defer my personal information until my next. on arrival of the Amelia you will please procure the necessary information of her sailing either with Convoy or Armed Ships that I may procure the return.

The Amelia is an American Vessel.

I am

Sir your very humble serv^tW^m BoultonW^m D. Brown

Sir

I Received your esteemed favor of the 22nd March
 or the 27th Curr^t coming David Stewart & Sons of Baltimore in
 Buckwolds & Parcel of London Three Bills Value together £1850.
 say Eleven hundred fifty pounds, Sterling, payable at 90 days for which value
 paid shall be paid to your Credit. I perceive by examining the
 Copy of my Acct^t enclosed (to which as well as my letter I beg leave to
 refer) that in the original I have made a mistake in the Entry &
 Overcharge at Liverpool which was £32. 4. 1. therefore the total
 £1882. 7. 5. which you will please Note accordingly. I am yet
 unable to give you any Acct^t of the Report of the Committee of
 Enquiry on the Copper Business as the discussion in parliament has
 been put off from time to time. Mr. Boulton is again returned to
 London on the 1st of week yesterday that nothing is yet done.
 Unless you should write with positive orders to send out more pamphlets

near Birmingham

Sir

Reserving you to my respects, on of Lundy's Esq

of the 2^d Curr. I have just been advised by my agent of two ships for Philadelphia. The one a British ship will leave the 1st of June or thereabouts, the premium on which is expected to be 10% with Letter & 8% on the former but as both will be in the port of London about the time your Plantations will reach Liverpool cannot now say which Vessel our Agent will be attending to as such I fear I shall only be able to furnish you with the content of the packages, which I shall receive. I shall desire my Agent to find you a Bill of Lading with the Vessel that brings out the Plantations. I have ordered this Letter to be put into the Bay of the other Vessel. An investigation of the State of the Copper Mines is now before a Committee of the House of Commons the result I hope will be favorable to the reduction of prices or at least to regulate it for the

Keep it within due bounds, I shall get the Insurance effected by
either ship or land as possible & shall forward you a regular bill
by the first opportunity after it is paid being in the mean time

Yours very little Servant
F. Matthews Donnell

Elias Bondenot Esq.

John April 29th 1799

Sir

I refer you to mine of the 10th Inst.
 of the *Comelin* from which I have effected the Shipment of your
 Ordnance & to the armed copy of weight I have added the many
 part also the Premium of Insurance. the whole amounting to
£1610. 7. 5. of which I have only received in part £400. the
 balance on the greatest part thereof I hope is already on its passage
 as Money it was at the junction is remarkably scarce

The Enquiry into the fate of the *Cypre* Men
 I believed has been gone into but the result is not known to the world.
 Dr. Mc Donnell himself is now in London on that business but just
 on the eve of returning therefore must defer my promised information
 until my next. on arrival of the *Comelin* you will please procure
 the necessary information of her sailing either with Convoy or armed ship
 that I may procure the return of any due. the *Comelin* is an
 American vessel 2000 Tons. I am Sir your very obt. Servant

W^m D. Brown

Elias Bondenot Esq^rEsq^rThe April 10th 1794
mar

Birmingham

Referring you to my lastest Copy of the
2^d Cuas, I have since been advised by my Agent of two Ships for Philadelphia, The one
a Dutch Ship will stune the other an American, the premiums on which are expected to be
12th C^t on the latter, & 8th C^t on the former but as both will be on the point of sailing
about the time your Packet will reach Liverpool, cannot now say which Agent
Agent will be able to ship by as such. I fear I shall only be able to furnish you
with the Contents of the Packages, which I shall care, I shall desire my Agent, to send
you a Bill of Lading with the T^l that brings out the Packets, and have order
this Letter to be put into the Bag of the same T^l. An investigation of the state of
the Copper Mines was before a Committee of the House of Commons the result I hope will
be favorable to the reduction of price, or at least to regulate it so as to keep it within due
bounds. I shall get the Insurance effected by either Ship as low as possible & shall furnish
you a regular Acc^t by the first opportunity, after it is done being in the mean time

Your very humble Serv^t

for

M^r BondenotDⁿW^m Bondenot

not liable to be out of order & most durable in its
 construction & with 8 furnishing Boys can strike 30
 thousand pieces of paper without fatigue. I showed M^r King
 & M^r Bayard my first Mint but the present far exceeds
 it & is not similar to any Machine ever erected before.

As you wished to see a statement of my acc^t for the
 two first Cargoes of planchets delivered to M^r Bayard I
 have subjoin the same; and beg leave to assure you that
 on my part our Correspondence in future shall be carried
 on with more regularity & punctuality than it has been
 wishing you health & the enjoyment of many happy years
 I remain

Sir Your most Obedt^t humble^t Serv^t
 Matthew Boulton
 of Solihull

Dear Brewster Esq

John April 2^d 1773
near Birmingham

For

According to my request of the 24th Decem^r

which I have not now time to copy for want of time to

save the Packet that will be made up to morrow

I must now beg leave to acquaint you that I have
not been able to ship you the 10 tons of planishes

owing to the severity of the winter which has for 6 days
together put a stop to all inland Navigation which
prevented my receiving the Lake Copies from the

Smelting Works in Wales I not only disappointed you

but prevented my execution of my contract with the
British Government.

I have now completed 60 casks
ready to go, which I shall not miss the first Ship
that offers passage from Bristol or Liverpool to
coming to your city. The Copper is most extraordinary
advanced in price. I must request you will not
fail sending me by first opportunity the Balance
as nearly due as you can make it convenient as
I cannot replace the cake Copper from which these
Planets were made it on account of Lofton or

what I shall charge them. Mr Angus King can give
experience and convince you of the ~~the~~ truth of my opinion
from the best calculation I can make ^{it will} without knowing
the exact charges of Shipping, Insurance, & Duty for convey
will at least be £1800.

With the Ship that takes the planets
I will send you the Doctors complaint & give you all
the information I shall in the mean time obtain on
the subject of Copper being ^{very respectfully} ~~very respectfully~~

Yours most obed^t Serv^t
W^m Boulton

M. W. S. Jan 16 29

Sir

The following are Copies of my last letter
 of which I forwarded Duple & Corp. I am yet with-
 out any answer from you relative to further ship-
 ments. I must beg you will not wait sending
 me a quantity of Blankets by the very first
 vessel, tho' it should be but a few tons, as I am
 again without any to proceed in business. Your
 next letter I hope will be decisive as to the
 supplies we may expect.

With much Resp. I remain

Sir, Yr O. H. Servant

M. B. Esq

Sir

Dorchester 10 March 1899

I have been pained with duplications of your letter to me dated 28 Nov^r for which I feel myself much obliged. I was not aware at the time our English met your orders that they were not competent to execute them. We are not entirely in their usual line of business in such a manner as to give perfect satisfaction. The specimens you have returned & some conversation of Mr. Boulton has convinced me that it is in his power to make the Glanville both better & cheaper than mine. He has the copper of us in the first instance some years ago. He has no reason to suppose that he should obtain the benefit of copper & metal works for the purpose which cost him some thousands of pounds. He did not at that time succeed in having been always the custom to have it coined in the mint & as had the custom to supply the copper the last time there was a shortage. He has however had intent to get it. It is not embarrassing himself for his former expense. His works being near Bath where almost all the copper is smelted & where labour is likewise much cheaper, & saving in machinery & interest is added to the furnace, then are very considerable advantages. He has not in fact are obliged to have most of our manufactures with, especially anything of the kind done in a workman.

For those Machinery for the purpose that it has cost us
 some ground must be much inferior to what has been
 erected at so great an expense. We will have supplied the
 bright best roller Copper but have not the art of grinding & the
 making it of that quality we had increased the expense by
 so frequently damaging the rolling engine. Our principal
 agent here whom we have lately got rid of did not execute
 his work so well as it ought to have been done if the whole
 department had laid in the rolling we did not have been
 able to give you satisfaction. It gives our Company & myself
 in particular great concern that we are obliged to decline
 so valuable a connection. I feel much obliged by the notice
 you express of giving us the preference you will still most
 likely have our Copper as we supply them with as much
 as it "convenient" for us to let them have & have now an
 agreement to furnish them constantly with Five Tons of Steel
 I have paid the Company by the Direction of Messrs. Clifford
 £36.19.2 being the balance of your account & for which
 you have credit in their Book. I have the honor to remain
 with great Respect— Sir

Yours obliged & obedient servant

William Gollman

Sir

Referring to my respects of the 2^d Dec^r. which
I have not now time to Copy for want of time to save the Packet that will be made
up to. However I must now beg leave to acquaint you that I have not
been able to ship you the 10 tons of Planchets Owing to the severity of the
Winter which has for 6 Weeks together put a stop to all inland Navigation
which prevented my receiving the Cash Copper from the smelting Works in
Wales & not only disappointed you but prevented my execution of my Contract
with the British Government.

I have now completed 60 Casks nearly 10 Tons which
at miss the first ship that offers either from Bristol or Liverpool to
your City. And as Copper is most extraordinarily advanced in
Price I must request you will not fail remitting me by first opportunity the
Balances as nearly due as you can make it convenient, as I cannot replace
the Cash Copper from which these Planchets was made at an advance of
£10⁰ 0⁰ per Ton, in what I shall Charge them. Mr. Rufus King our former
Experimenter convinces you of the truth of my assertions from the best calculations
I can make the Amount without knowing the exact charges of Shipping
Insurance, & Duty for Convey will at least be £1500.

With the ship that takes the Planchets I
will send you the Invoice complete & give you all the information I shall in
the mean time obtain on the subject of Copper being very respectfully

Sir

Your most ob^d serv^tSigned For Math^s. Boulton
W. D. Brown

1799

Dec. 2^d The Director of the mint by a letter of this date to the Reverend
 * J. A. Bond, of Baltimore, requested leave & authority to purchase Bills
 of Exchange on London, to the amt. wanted. He then drew to the
 order of Matthew Boulton - The Bill was accordingly bought by
 Mr. Bond amt. David Stewart being off. Paid amt 16^d Dollars.
 1799 at 60^d 8^d 1/2 on Richards & David Stewart for
 £1251. 11. Sterling at 101^d Exchange making £5370.33
 the bill however (by inadvertency I suppose) was drawn in
 favor of the Rev. J. A. Bond - and by him endorsed
 it was forwarded to Matthew Boulton, Lich, near Birmingham,
 England, in payment for copper imported for the purpose of
 making coins -
 You will please to observe, that all resistances made in stating
 money, and charged by the Treasurer of the mint at the par of exch.
 also, all amounts of copper received by him, and created at the same
 rate - The sum is left on the paper given for that Bill, above or below
 paid is carried to Profit & Loss on Exchange - The above bill was
 charged to Mr. Boulton, who remitted to him, as follows -
 To David, said for £1251. 11. By at 101^d Ex - 5370.33
 To Profit & Loss for the difference, being gain between the amt
 paid for a Bill & its value at par - 5362.14 1/2
 Balance of £1251. 11. Total. 100^d 5370.33 5362.14 1/2
 Deficit - Cost as above
